

ISO 14001:2015 Environmental Management System		Section:	5.2 Environmental Policy
		Version	7
		Date:	07/04/2026

ENVIRONMENTAL POLICY

The Makita global vision is that society and global communities should be able to develop for themselves, and future generations. By providing the tools, Makita is ensuring that anything is possible. This will be achieved through the initiatives that guide our business, including ensuring product and service quality and innovations, and working with the requirements of the environment, safety, and security systems.

The leadership and all our employees within Makita UK are committed to, understand the importance and implementation of our Environmental Management System, that is certified to ISO1401:2015, that we understand the aspects and minimise the environmental impacts of our operations, supply chain and products may have on the environment, whilst maintaining our resilience to environmental risks and impacts.

Makita UK is committed to:

- Reduction in our consumption of resources,
- Taking action to reduce our carbon footprint, achieving our stated objectives and targets,
- Integrating our environmental management into our operations,
- Manage waste throughout our operations by principles of reduction, re-use and recycle,
- Prevention of environmental incidents that may cause pollution, and react to emergencies should they occur,
- Ensuring environmental criteria is considered throughout our supply chain,
- Being compliant with all relevant legislation, including
 - UK Waste Electrical and Electronic Equipment (WEEE)
 - Extended Producer Responsibilities (EPR)
 - Waste Batteries and Accumulators
 - Registration, Evaluation, Authorisation, Restriction of Chemicals (REACH)
 - Restriction of Hazardous Substances (RoHS)
- Promoting environmental awareness throughout Makita UK, our partners and supply chain,
- Working in partnership with the community by behaving in a considerate and responsible manner
- Monitoring, measuring, analysing, and evaluating our environmental performance, taking the relevant and appropriate actions to continually improve our environmental performance.
- Ensuring roles, responsibilities and authorities are assigned and communicated to assure the effective implementation of this policy.
- Working with Makita corporation on environmental protection activities that are related to achieving the company goals of the SDGs. (Sustainable Development Goals).
